TO SERVE QUALITY TEA IS OUR PRIVILEGE

CHELTON®
TEA COLLECTION

Single-Origin Tea

We never blend teas from different origins, ensuring each one reflects the true character of its region. We place particular emphasis on pure Ceylon black tea, celebrated for its exceptional depth and quality. The island's unique microclimates and the skill of its tea makers have earned Ceylon tea its reputation as one of the finest in the world.

Some of our green, oolong and Pu-erh teas are selected from China, the country with a long and continuous tradition of mastering these classic varieties.

Traditionally Crafted Tea

We use only handpicked Ceylon teas, crafted through the traditional method. This small-batch process allows tea makers to create leaves with a distinctive character and refined depth. Traditional teas reveal gentle, layered flavours shaped by the region and climate in which they grow. By combining time-honoured techniques with modern quality standards, we ensure a consistent aroma and flavour in every cup.

A Wide Range of Teas

We offer a selection of black, green, oolong, Pu-erh and flavoured teas. They are available as loose leaf teas and tea bags that come in cardboard packages, elegant tins, and convenient zip-lock pouches, designed to impress both with quality and appearance.

Blends that stand the test of time!

For us, tea is more than a beverage – it is a culture that Chelton has been shaping for a quarter of a century. We strive for every product to embody impeccable quality and refined aesthetics. Our teas enchant with their vibrant aroma and exquisite flavour, turning simple moments into truly special ones.

From classic blends and vivid creations inspired by the sunlit gardens of Ceylon to delicate teas crafted according to the ancient traditions of China, Chelton invites you on a journey through taste and culture.
